Standout Design

The XUV 3XO introduces a bold, athletic silhouette that commands attention.

It features a distinctive front grille and headlamp design with a piano black finish on the grille and LED headlamps, LED DRLs and LED fog lamps. Several unique wheel designs have been penned for the different XUV 3XO models, including a stylish 17" diamond-cut alloy wheel on luxury models.

The XUV 3XO's interior complements its striking exterior with a blend of premium finishes and modern design elements and equipment.

Captivating LED Tail Lamps & Rear Infinity Light Bar

Advanced technology

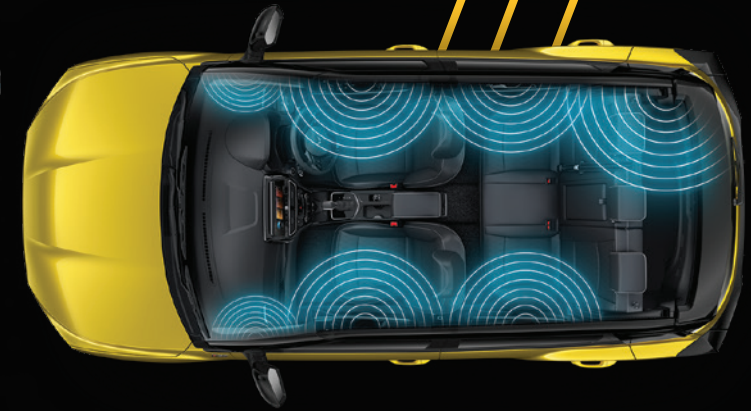

The XUV 3XO is at the forefront of automotive technology twin 26.03 cm (10.25") HD screens, and wireless Android Auto and Apple Carplay.

The first-in-segment features, like a 65 W USB-C charging point and Electronic Parking Brake with Auto Hold, are tailored for tech-savvy users seeking convenience on the go.

Adding to the list, an immersive audio experience is created through a Harman Kardon Premium Audio with a dedicated amplifier and sub-woofer that also offers Sonic Expanse, Bass Enhancer, a nine-band equaliser and four Ambient Sound Modes.

65 W USB - C Fast Charging

Dual floating high-resolution screens - with the largest
10.25" digital cluster and 10.25" infotainment system

Additionally, Level 2 ADAS with 10 features ensures enhanced driving assistance and safety measures. The inclusion of radar technology aids the ability to detect obstacles in challenging weather conditions such as heavy rain or dense fog, thereby offering crucial collision warnings and facilitating Automatic Emergency Braking (AEB).

These cutting-edge features are complemented by the largest-in-class Skyroof™, which not only enhances the vehicle's visual appeal but also enriches the driving experience. The 360-degree surround view system with blind view monitor further adds to the comfort and convenience of the driver.

- Harman Kardon Premium Audio system, 7 speakers and a nine-channel equaliser
- Surround View system with blind view monitoring
- Wireless charging and connectivity with Apple and Android systems
- Ultra-fast 65W USB Charging that is capable of charging a laptop
- First in segment tyre position display

World-Class Safety.

Segment disruptor with 6 airbags standard across the range

Safety is paramount in the XUV 3XO, ensured by the extensive use of high-strength steel and 35 standard safety features. The 3XO is designed with 45% of body making use of ultra-high-strength steel for unparalleled strength. The cabin is engineered to absorb a 20 ton frontal impact, with an energy absorption zone and its proven trident structure in the minimal deformation zone, creating the safe cocoon for its occupants.

Additional cutting-edge safety technologies include a 360-degree surround view system with Blind View Monitor, new-generation Electronic Stability Control (ESC) with hill hold control and hill descent control, ensuring superior control in challenging driving conditions.

- Segment leader with electronic stability program (ESP) as standard in the range
- Standard three-point seatbelts on all seats in the range
- Level 2 Advanced Driver Assistance Systems (ADAS) with 10 standard safety features
- Standard All-wheel disc brakes, with disc wipe and emergency pre-fill system
- Safety cocoon with over 45% of body in ultra-high-strength steel

Electronic Power Brake & Autohold

Level 2 Advanced Driver Assistance Systems make the XUV 3XO an impenetrable fortress. With a radar and a camera that detects obstacles, avoids collisions, and assists the driver, there's no place as safe and exciting on the road as this.

Adaptive Cruise Control

Auto Emergency Braking (Cyclist)

Forward Collision Warning

Auto Emergency Braking (Pedestrian)

Traffic Sign Recognition

Auto Emergency Braking (Vehicles)

Furthermore, the vehicle comes standard with six airbags, four disc brakes, 3-point seat belts and seat-belt reminder for all seats along with passenger airbag on/off for child safety, ISOFIX child seats with top-tether, among others, providing comprehensive protection for all occupants.

These features underscore the XUV 3XO's commitment to safety, establishing it as a leader in its class for both active and passive safety systems.

- High Beam Assist
- Lane Departure Warning
- Lane Keep Assist
- Smart Pilot Assist

Skyroof™

Dual Zone Climate Control

Cooled Glove Box

Versatile 364L Boot Space

Superior SUV Comfort

The SUV's credentials are further enhanced by its longest-in-class bonnet, adding a sense of robustness and forward motion.

With a commanding seating position where the driver's eye level is almost 1.4 metres above the ground, the XUV 3XO offers best-in-class forward visibility of 23.7°.

Bold wheel arches and large tyres underscore its ruggedness, with the largest tyre outside diameter (OD) in its class, contributing to a formidable stance. The impressive ground clearance, calibrated approach and departure angles, and best-in-class water-wading depth amplify the XUV 3XO's SUV-ness factor. Complementing these features are the segment-leading R17 Diamond Cut Alloy Wheels, which further accentuate its authoritative presence.

*Specifications may vary by model.

The XUV 3XO excels in providing a spacious and comfortable environment for all its occupants. It boasts best-in-class occupant space, which is remarkably generous, comparable even to SUVs a class above. This is complemented by the spacious boot space, which can accommodate up to 364 litres*. Additionally, the XUV 3XO offers best-in-class leg and hip room for the first and second row passengers, ensuring a comfortable ride for all.

Features like a cooled glove box with illumination and a standard 60:40 split in the rear seats ensure convenience and functionality. The front armrest, which is standard from the base variant and integrated with storage, adds to the ergonomic and practical design, making every journey in the XUV 3XO a blend of comfort and class.

Space:

- Width: 1821 mm
- Wheelbase: 2600 mm
- Rear Split Seats (Standard from base)
- Boot Space of 364 L**
- 60:40 split rear seats standard across the range

Leatherette seats with diamond-mesh patterns & decorative stitching

The image shows a close-up, high-angle view of a car's interior, specifically the center console and gear shift area. The gear shift is a black leather-wrapped automatic shifter with a silver trim piece. The center console has a gear shift gate with 'D', 'N', 'R', and 'P' markings. Above the gear shift, there are buttons for 'MODE', 'MEMORY', 'OFF', and 'DUAL'. A circular 'A/C' control is visible at the top right. The background shows the car's dashboard and seats, which are dark with perforated leather. Two yellow lines are drawn over the image, one starting from the top left and curving towards the gear shift, and another starting from the bottom left and curving towards the gear shift.

Spirited Performance:

The XUV 3XO is powered by a turbo-petrol engine that is designed for exhilarating performance and superior efficiency.

Staying true to the brand's legacy of offering thrilling performance, the mStallion TCMPEi turbo-petrol engine delivers 82 kW and 200 Nm of torque. The engine features new vehicle management software and intelligent turbo-charging to clock a 0-60 km/h run in 4.6s while offering exceptionally low fuel consumption.

The XUV 3XO can also be ordered with a 6-speed AISIN Third Generation Automatic Transmission, renowned for its durability and reliability. The gearbox has proven itself in the XUV 700, which utilises a transmission from the same family.

The transmission offers smooth gear shifts and is optimised to deliver great fuel efficiency as well as a 'fun to drive' experience.

Each engine is available with a 6-speed manual gearbox and an added option of 6-speed AISIN automatic transmission for the petrol engines.

The XUV 3XO is equipped with an advanced suspension system that includes a MacPherson Strut Fully Independent Front Suspension and a Twist Beam Semi-independent Rear Suspension.

This set-up ensures a ride quality that is quiet and comfortable, with quietness matching that of the XUV 700. Additionally, the XUV 3XO features first-in-segment three smart steering modes—Comfort, Normal and Sport. These smart steering modes are available across all powertrains, ensuring that every driver can enjoy a controlled and responsive driving experience, setting a new standard for what drivers can expect from a compact SUV.

The SUV also features custom drive modes—Zip, Zap and Zoom, each designed to enhance the driving dynamics on varying terrains by adjusting the vehicle's performance characteristics. Moreover, the XUV 3XO incorporates MTV-CL (Multi-Tuned Valve Concentric Land) technology within the dampers. This advanced valving technology significantly improves ride and handling performance by optimising the suspension response to different driving conditions.

- Quick acceleration 0-60km/h in under five seconds
- Third-generation Aisin 6-Speed Automatic Transmission with Torque Converter on all AT variants
